

Printing date 26.09.2023 Version number 1.2 (replaces version 1.1) Revision: 26.09.2023

### 1 Identification of the substance/mixture and of the company/undertaking

- · 1.1 Product identifier
- · Trade name: KREUL Zapon Varnish 60 ml
- · Article number: 84060
- 1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

Application of the substance / the mixture

Lacquer

For artists and hobby user.

- · 1.3 Details of the supplier of the safety data sheet
- Manufacturer/Supplier:

C. KREUL GmbH & Co. KG

Carl-Kreul-Straße 2

D-91352 HALLERNDORF

GERMANY

Phone: +49 (0) 9545/925 - 0

Fax: + 49 (0) 9545/925 - 511

info@c-kreul.de

· Further information obtainable from:

Product Safety Department:

Treiber, b.treiber@c-kreul.de

· 1.4 Emergency telephone number: + 44 (0) 171 635 91 91

### 2 Hazards identification

- · 2.1 Classification of the substance or mixture
- Classification according to Regulation (EC) No 1272/2008

flame

Flam. Liq. 2 H225 Highly flammable liquid and vapour.

Eye Irrit. 2 H319 Causes serious eye irritation.

STOT SE 3 H336 May cause drowsiness or dizziness.

- 2.2 Label elements
- Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the GB CLP regulation.

· Hazard pictograms

GHS02

· Signal word Danger

· Hazard-determining components of labelling:

ethyl acetate

1-methoxy-2-propanol

n-butyl acetate

Hazard statements

H225 Highly flammable liquid and vapour.

H319 Causes serious eye irritation.

H336 May cause drowsiness or dizziness.

Precautionary statements

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P243 Take action to prevent static discharges.

(Contd. on page 2)

Printing date 26.09.2023 Version number 1.2 (replaces version 1.1) Revision: 26.09.2023

(Contd. of page 1)

P271 Use only outdoors or in a well-ventilated area.

P280 Wear eye protection / face protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

to do. Continue rinsing.

P312 Call a POISON CENTER/doctor if you feel unwell.
P337+P313 If eye irritation persists: Get medical advice/attention.

P403+P235 Store in a well-ventilated place. Keep cool.

P405 Store locked up.

P501 Dispose of contents/container in accordance with regional regulations.

- 2.3 Other hazards
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable. · **vPvB:** Not applicable.

### 3 Composition/information on ingredients

- 3.2 Mixtures
- · Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:	angerous components:		
CAS: 141-78-6 EINECS: 205-500-4 Index number: 607-022-00-5	ethyl acetate  Flam. Liq. 2, H225;  Eye Irrit. 2, H319; STOT SE 3, H336, EUH066	25-≤50%	
CAS: 107-98-2 EINECS: 203-539-1 Index number: 603-064-00-3	1-methoxy-2-propanol Flam. Liq. 3, H226; ♦ STOT SE 3, H336	20-≤25%	
CAS: 123-86-4 EINECS: 204-658-1 Index number: 607-025-00-1 Reg.nr.: 01-2119485493-29-XXXX	n-butyl acetate  Telephone Flam. Liq. 3, H226; STOT SE 3, H336, EUH066	20-≤25%	
CAS: 9004-70-0	nitrocellulose solutions, with not more than 12.6% nitrogen, by dry mass, and not more than 55% nitrocellulose  Tlam. Sol. 2, H228	10-≤25%	
CAS: 67-63-0 EINECS: 200-661-7 Index number: 603-117-00-0	propan-2-ol	2.5-≤10%	

<sup>·</sup> Additional information: For the wording of the listed hazard phrases refer to section 16.

### 4 First aid measures

- 4.1 Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Wash with water and acidic soap.

If skin irritation continues, consult a doctor.

After eye contact:

Remove contact lenses.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- After swallowing: Seek immediate medical advice.
- · 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

### **5 Firefighting measures**

- 5.1 Extinguishing media
- · Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

- 5.3 Advice for firefighters
- Protective equipment: No special measures required.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

### **6 Accidental release measures**

· 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

6.2 Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers/ surface or ground water.

(Contd. on page 3)

Printing date 26.09.2023 Version number 1.2 (replaces version 1.1)

(Contd. of page 2)

Revision: 26.09.2023

· 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

### 7 Handling and storage

### · 7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

· Information about fire - and explosion protection:

Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

- · 7.2 Conditions for safe storage, including any incompatibilities
- Storage
- · Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions:

Keep container tightly sealed.

Protect from heat and direct sunlight.

Store in cool, dry conditions in well sealed receptacles.

- Storage class: 3
- · 7.3 Specific end use(s) See chapter 1.2.

	ol parameters ts with limit values that require mo	onitoring at the workplace:

- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- Appropriate engineering controls No further data; see section 7.
- · Individual protection measures, such as personal protective equipment
- General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

### Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Hand protection

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact gloves made of the following materials are suitable:

PVC or PE gloves

Recommended thickness of the material:  $\geq$  - mm

Value for the permeation: Level  $\leq$  8 h

As protection from splashes gloves made of the following materials are suitable:

Butyl rubber, BR

Recommended thickness of the material: ≥ 0.3 mm

Value for the permeation: Level  $\leq$  4-8 h

Eye/face protection

Tightly sealed goggles

### 9 Physical and chemical properties

- · 9.1 Information on basic physical and chemical properties
- · General Information
- Physical state Fluid
  Colour: Yellowish

Odour: Solvent-like

(Contd. on page 5)

### Safety data sheet

according to 1907/2006/EC, Article 31

Version number 1.2 (replaces version 1.1) Printing date 26.09.2023

(Contd. of page 4)

Revision: 26.09.2023

**Odour threshold:** Not determined. Melting point/freezing point: Undetermined

Boiling point or initial boiling point and boiling range 77-78 °C (141-78-6 ethyl acetate) Highly flammable.

Lower and upper explosion limit

· Lower: 1.1 Vol % 11.5 Vol % · Upper:

-4 °C (141-78-6 ethyl acetate) · Flash point:

· Decomposition temperature: Not determined. Not determined. pН Viscosity:

· Kinematic viscosity at 20 °C 120 s (DIN 53211/4) Dynamic: Not determined.

· Solubility

· water: Not miscible or difficult to mix.

Partition coefficient n-octanol/water (log value) Not determined.

Vapour pressure at 20 °C: 97 hPa (141-78-6 ethyl acetate)

Density and/or relative density

Density at 20 °C: ~0.917 g/cm3 Relative density Not determined. · Vapour density Not determined.

9.2 Other information

Appearance:

Fluid Form: Important information on protection of health and

environment, and on safety.

Product is not selfigniting. Ignition temperature:

Product is not explosive. However, formation of explosive air/ Explosive properties:

vapour mixtures are possible.

Change in condition

 Evaporation rate Not determined.

· Information with regard to physical hazard classes Explosives Void Flammable gases Void Void Aerosols Oxidising gases Void Gases under pressure Void

Highly flammable liquid and vapour. · Flammable liquids

Flammable solids Void Self-reactive substances and mixtures Void Pvrophoric liquids Void · Pyrophoric solids Void Self-heating substances and mixtures Void Substances and mixtures, which emit flammable gases in contact with water Void Oxidising liquids Void

Oxidising solids Void Organic peroxides Void Corrosive to metals Void **Desensitised explosives** Void

### 10 Stability and reactivity

- · 10.1 Reactivity No further relevant information available.
- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- · 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: No dangerous decomposition products known.

### 11 Toxicological information

- 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
- · Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:		
141-78-6 ethyl acetate		
Oral	LD50	5,620 mg/kg (rabbit)
Dermal	LD50	>20,000 mg/kg (rabbit) (ECHA)
Inhalative	LC50/4h	1,600 mg/m³ (rat)

(Contd. on page 6)

Revision: 26.09.2023

	67-63-0 propan-2-ol			
	EC50/48h	10,100 mg/l (daphnia magna)		
	· 12.2 Persistence and degradability			
	67-63-0 propan-2-ol			
	Biodegradability >70 % /10d			

- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- 12.6 Endocrine disrupting properties The product does not contain substances with endocrine disrupting properties.
- 12.7 Other adverse effects
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

### 13 Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation Must not be disposed together with household garbage. Do not allow product to reach sewage system.
- · Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.

### **14 Transport information**

- · 14.1 UN number or ID number
- · ADR, IMDG, IATA UN1263

(Contd. on page 7)
