

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 16.11.2022

Version number 1.3 (replaces version 1.2)

Revision: 16.11.2022

1 Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier
- · Trade name: KREUL Acrylic Gloss Varnish synthetic resin-based 50 ml, 250 ml
- · Article number: 79405, 79406
- 1.2 Relevant identified uses of the substance or mixture and uses advised against
- No further relevant information available.
- Application of the substance / the mixture Lacquer
- For artists and hobby user.
- 1.3 Details of the supplier of the safety data sheet
 Manufacturer/Supplier:
 C. KREUL GmbH & Co. KG
 Carl-Kreul-Straße 2
 D-91352 HALLERNDORF
 GERMANY
 Phone: + 49 (0) 9545/925 0
 Fax: + 49 (0) 9545/925 511
 info@c-kreul.de
- Further information obtainable from: Product Safety Department: Treiber, b.treiber@c-kreul.de
 1.4 Emergency telephone number: + 44 (0) 171 635 91 91

2 Hazards identification

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 flame Flam. Liq. 3 H226 Flammable liquid and vapour.

STOT SE 3 H336 May cause drowsiness or dizziness.

Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

- 2.2 Label elements
- Labelling according to Regulation (EC) No 1272/2008
- The product is classified and labelled according to the GB CLP regulation. Hazard pictograms

- · Signal word Warning
- · Hazard-determining components of labelling:
- Hydrocarbons, C9-C11, n-alkanes, iso-alkanes, cyclenes, <2% aromatics
- Hazard statements
- H226 Flammable liquid and vapour.
- H336 May cause drowsiness or dizziness.
- H412 Harmful to aquatic life with long lasting effects.
- Precautionary statements
- P101 If medical advice is needed, have product container or label at hand.
- P102 Keep out of reach of children.
- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P271 Use only outdoors or in a well-ventilated area. P370+P378 In case of fire: Use CO2, powder or water spray to extinguish.

Version number 1.3 (replaces version 1.2)

Revision: 16.11.2022

(Contd. of page 1)

 P403+P233
 Store in a well-ventilated place. Keep container tightly closed.

 P501
 Dispose of contents/container in accordance with local/regional/national/international regulations.

2.3 Other hazards

Vapours may form explosive mixtures with air. This material is combustible and can be ignited by heat, sparks, flames, or other sources of ignition (e.g. static electricity, pilot lights, or mechanical/ electrical equipment). Take precautionary measures against static discharges.

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.

3 Composition/information on ingredients

· 3.2 Mixtures

• **Description:** Mixture of substances listed below with nonhazardous additions.

· Dangerous components:

Dangerous components.		
CAS: 64742-48-9	Hydrocarbons, C9-C11, n-alkanes, iso-alkanes, cyclenes, <2% aromatics	50-<100%
EC number: 919-857-5	🚸 Flam. Liq. 3, H226; 🚸 Asp. Tox. 1, H304; 🚸 STOT SE 3, H336	
Reg.nr.: 01-2119463258-33-XXXX		
CAS: 64742-95-6	Hydrocarbons, C9, aromatics	10-<20%
EC number: 918-668-5	🚯 Flam. Liq. 3, H226; 🚯 Asp. Tox. 1, H304; 🚯 Aquatic Chronic 2, H411;	
Reg.nr.: 01-2119455851-35-XXXX	🚯 STOT SE 3, H335-H336	
 Additional information: For the v 	ording of the listed bazard phrases refer to section 16	

4 First aid measures

- · 4.1 Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation:
- Supply fresh air; consult doctor in case of complaints.
- In case of unconsciousness place patient stably in side position for transportation.
- Seek immediate medical advice.
- After skin contact:
- Wash with water and acidic soap.
- If skin irritation continues, consult a doctor. • After eye contact:
- Remove contact lenses.

Rinse opened eye for several minutes under running water.

- After swallowing:
- Administer medicinal carbon.

A person vomiting while laying on their back should be turned onto their side.

- Seek immediate medical advice.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
- If swallowed or in case of vomiting, danger of entering the lungs.

5 Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters
- · Protective equipment: Wear self-contained respiratory protective device.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures	
Ensure adequate ventilation	
Use respiratory protective device against the effects of fumes/dust/aerosol.	
Keep away from ignition sources.	
Mount respiratory protective device.	
Wear protective equipment. Keep unprotected persons away.	
6.2 Environmental precautions:	
Keep contaminated washing water and dispose of appropriately.	
Inform respective authorities in case of seepage into water course or sewage system.	
Do not allow to enter sewers/ surface or ground water.	
· 6.3 Methods and material for containment and cleaning up:	
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
Dispose contaminated material as waste according to item 13.	
Ensure adequate ventilation.	
	(Contd. on page 3)

Version number 1.3 (replaces version 1.2)

Printing date 16.11.2022

Revision: 16.11.2022

(Contd. of page 2)

· 6.4 Reference to other sections

- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

7 Handling and storage

· 7.1 Precautions for safe handling

- Prevent formation of aerosols.
- Take note of emission threshold.
- Ensure good ventilation/exhaustion at the workplace.
- Information about fire and explosion protection:
- Keep ignition sources away Do not smoke. Fumes can combine with air to form an explosive mixture.
- Protect against electrostatic charges.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Store in a cool location.
- Information about storage in one common storage facility:
- Do not store together with reducing agents, heavy-metal compounds, acids and alkalis.
- · Further information about storage conditions:
- Keep container tightly sealed.
- Store receptacle in a well ventilated area.
- Protect from heat and direct sunlight.
- Storage class: 3
- · 7.3 Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Oral	long-term exposure-systemic effects	300 mg/kg (general population)	
Dermal	long-term exposure-systemic effects	300 mg/kg bw/d (general population)	
		300 mg/kg bw/d (worker)	
Inhalative	long-term exposure-systemic effects	900 mg/m³ (general population)	
		1,500 mg/m³ (worker)	
64742-95-	6 Hydrocarbons, C9, aromatics		
Oral	long-term exposure-systemic effects	11 mg/kg (general population)	
Dermal	long-term exposure-systemic effects	11 mg/kg bw/d (general population)	
		25 mg/kg bw/d (worker)	
Inhalative	long-term exposure-systemic effects	32 mg/m³ (general population)	
		150 mg/m ³ (worker)	

- · 8.2 Exposure controls
- Appropriate engineering controls No further data; see item 7.
- Individual protection measures, such as personal protective equipment
- General protective and hygienic measures:
- The usual precautionary measures are to be adhered to when handling chemicals.
- Do not inhale gases / fumes / aerosols.
- Do not eat, drink, smoke or sniff while working.
- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.
- Respiratory protection: Use suitable respiratory protective device when high concentrations are present.

Hand protection

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. For the permanent contact gloves made of the following materials are suitable:

- Nitrile rubber, NBR
- Recommended thickness of the material: ≥ 0.4 mm
