

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 14.09.2020

Version number 1.0

Revision: 14.09.2020

# 1 Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier
- Trade name:

KREUL Windowmarker (Safety data sheet for the included ink.)

- · Article number: 42901, 42902, 42903, 42904, 42905, 42909, 42907, 42912, 429036
- 1.2 Relevant identified uses of the substance or mixture and uses advised against
  - No further relevant information available. • Application of the substance / the mixture Paint

For artists and hobby user.

· 1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: C. KREUL GmbH & Co. KG Carl-Kreul-Straße 2 D-91352 HALLERNDORF DEUTSCHLAND Tel. + 49 (0)9545 / 925 - 0 Fax + 49 (0)9545 / 925 - 511 E-Mail: info@c-kreul.de

- Further information obtainable from: Product Safety Department: Treiber, b.treiber@c-kreul.de
- **1.4 Emergency telephone number:** Telephone + 49 (0) 9545/925 - 0 Fax + 49 (0) 9545/925 - 511 (Monday - Thursday 8.00 - 17.00, Friday 8.00 - 15.00)

# 2 Hazards identification

### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 The product is not classified, according to the CLP regulation.

# 2.2 Label elements

EC Regulation 1907/2006 (REACH) differentiates between substances, mixtures and articles. In accordance with the definition of articles in REACH, the European Writing Instrument Manufacturer's Association (EWIMA) considers writing instruments, marker pens etc. to be articles. However, no safety data sheets are provided for articles. In contrast, safety data sheets are mandatory for substances and mixtures. For this reason, the information in the safety data sheet provided always refers to the basic ink and not to the product as a whole.

- · Labelling according to Regulation (EC) No 1272/2008 Void
- · Hazard pictograms Void

· Signal word Void

- · Hazard statements Void
- · Additional information:

EUH208 Contains 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction.

- · 2.3 Other hazards
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- **vPvB:** Not applicable.

# 3 Composition/information on ingredients

- · 3.2 Chemical characterisation: Mixtures
- · Description:
- Mixture of substances listed below with nonhazardous additions. Mixture based on water, colorants, fillers and additives.
- · Dangerous components: Void
- Additional information: For the wording of the listed hazard phrases refer to section 16.

(Contd. on page 2)

Version number 1.0

Revision: 14.09.2020

(Contd. of page 1)

## 4 First aid measures

- · 4.1 Description of first aid measures
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Generally the product does not irritate the skin.
- Wash with water and acidic soap.
- If skin irritation continues, consult a doctor.
- After eye contact:
- Remove contact lenses.
- Rinse opened eye for several minutes under running water.
- After swallowing:
- If symptoms persist consult doctor.
- Rinse out mouth and then drink plenty of water.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

# 5 Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- 5.2 Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- 5.3 Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

#### 6 Accidental release measures

- · 6.1 Personal precautions, protective equipment and emergency procedures Not required.
- · 6.2 Environmental precautions:
- Dilute with plenty of water.
- Do not allow to enter sewers/ surface or ground water.
- 6.3 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- Dispose contaminated material as waste according to item 13.
- 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

## 7 Handling and storage

· 7.1 Precautions for safe handling No special precautions are necessary if used correctly.

- Information about fire and explosion protection:
- No special measures required.
- The product is not flammable.
- · 7.2 Conditions for safe storage, including any incompatibilities
- Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- · Further information about storage conditions:
- Protect from frost.
- Protect from heat and direct sunlight.
- · 7.3 Specific end use(s) See chapter 1.2.

## 8 Exposure controls/personal protection

· Additional information about design of technical facilities: No further data; see item 7.

- 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace:
- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- · General protective and hygienic measures: Wash hands before breaks and at the end of work.
- · Respiratory protection: Not required.

Printing date 14.09.2020

Version number 1.0

Revision: 14.09.2020

#### Protection of hands:

(Contd. of page 2)

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Material of gloves** 

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. **Eye protection:** Goggles recommended during refilling

# 9 Physical and chemical properties

| <ul> <li>9.1 Information on basic physical and</li> </ul> | chemical properties                                  |
|---|--|
| General Information                                       |  |
| · Appearance:   |  |
| Form:<br>Colour:  | Fluid  |
| · Odour:  | According to product specification<br>Characteristic |
| · Odour threshold:  | Not determined.                                      |
| pH-value at 20 °C:  | 6–9  |
| Change in condition                                       |  |
| Melting point/freezing point:                             | Undetermined   |
| Initial boiling point and boiling range                   | : Undetermined.                                      |
| · Flash point:  | Not applicable.                                      |
| · Flammability (solid, gas):                              | Not applicable.                                      |
| · Decomposition temperature:                              | Not determined.                                      |
| · Auto-ignition temperature:                              | Product is not selfigniting.                         |
| · Explosive properties:                                   | Product does not present an explosion hazard.        |
| · Explosion limits:                                       |  |
| Lower:  | Not determined.                                      |
| Upper:  | Not determined.                                      |
| · Vapour pressure:  | Not determined.                                      |
| · Density at 20 °C:                                       | 1.1–1.2 g/cm <sup>3</sup>                            |
| · Relative density  | Not determined.                                      |
| · Vapour density  | Not determined.                                      |
| · Evaporation rate  | Not determined.                                      |
| <ul> <li>Solubility in / Miscibility with</li> </ul>      |  |
| water:  | Fully miscible.                                      |
| · Partition coefficient: n-octanol/water:                 | Not determined.                                      |
| · Viscosity:  |  |
| Dynamic:  | Not determined.                                      |
| Kinematic:  | Not determined.                                      |
| <ul> <li>9.2 Other information</li> </ul>                 | No further relevant information available.           |

# 10 Stability and reactivity

· 10.1 Reactivity No further relevant information available.

10.2 Chemical stability

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

- 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- **10.5 Incompatible materials:** No further relevant information available.
- · 10.6 Hazardous decomposition products: No dangerous decomposition products known.

# 11 Toxicological information

- 11.1 Information on toxicological effects
- · Acute toxicity Based on available data, the classification criteria are not met.
- Primary irritant effect:
- · Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

(Contd. on page 4)

GB

Printing date 14.09.2020

Version number 1.0

Revision: 14.09.2020

(Contd. of page 3)

- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- $\cdot$  Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- **STOT-single exposure** Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

# 12 Ecological information

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.

- · 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

# 13 Disposal considerations

#### 13.1 Waste treatment methods

• **Recommendation** Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

#### · European waste catalogue

| -        |  |
|----------|--|
| 08 01 12 | waste paint and varnish other than those mentioned in 08 01 11 |
| 15 01 02 | plastic packaging  |

#### · Uncleaned packaging:

· Recommendation: Disposal must be made according to official regulations.

Recommended cleansing agents: Water, if necessary together with cleansing agents.

### 15 Regulatory information

· 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

· Directive 2012/18/EU

- · Named dangerous substances ANNEX I None of the ingredients is listed.
- · 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
